## METEOROLOGIST

1. What is an anemometer?
2. What are knots? (Not the ones used in ROCK CLIMBING!!!)
3. What is the speed in meters/second of 25 knots?
4. What is a meteorologist?
5. What are the responsibilities of a meteorologist?
6. What type of tools and equipment do meteorologists use to predict weather (minimum of 3)?
7. Name a local meteorologist.

### **BONUS (EARN YOUR METEOROLOGIST CERTIFICATE)!!!**

Send an email to a local meteorologist asking him/her a question. When you receive a response, **print** the response and present the information to the class.
